Our organic tomato farm is located only a few miles from our solar powered production site in Pontinia, which means we can process our tomatoes within 5 hours of harvest.

Our state of art machineries combine traditional production methods with innovative technology to produce more than 60% of our product portfolio from our very own tomatoes.

All our farms and factory are SMETA certified for fair treatment of workers.

We choose independent producers that share our values to build long term relationships with.

It's food made by friends, for friends.

MR ORGANIC'S PROMISES

We believe in a more conscious and organic way of living that cares about people, the planet and all beings that live in it.

Planet

**Raising
an organic
culture**

Plantbased

**Planting
the seeds for
conscious
living**

Positivity

**Live positive,
eat positive!**

People

**Food made
by friends,
for friends**

Produce

**Yummy, naked
goodness**

Certified

Corporation

In August 2022, Mr Organic achieved B Corp certification, a recognition that we are using business as a force for good.

- **Community – From our tomato farm, to our suppliers, to our workers, we take care to spread positivity in our community. *Live positive, eat positive!***
- **Customers – We take care to always provide the best possible products for our customers. *It's just yummy naked goodness.***
- **Governance – Mr Organic's mission is focused on impact, ethics, and transparency. *We're planting the seeds for conscious living.***
- **Workers – Our workers are the heart of the Mr Organic Family and caring for them and their happiness will always be our priority. *Food made by friends, for friends.***
- **Environment – We work with nature in a sustainable way to protect our planet. *Raising an organic culture.***

What does B Corp mean to us?

“From the very beginning, Mr Organic has been about more than just food – it's about raising an Organic culture and living in harmony with the people and the environment around us.

B Corp certification was a chance for us to examine every single area of our business to ensure we're meeting high standards of social, ethical, and environmental performance, and we are delighted with our impact report score of 106.6.

We are so proud of all the hard work that has gone into this achievement and will continue to push to be the best possible business for people, the planet, and all living things.”

GIVING BACK

The Mr Organic Family Foundation

Happiness is not about what we have, but about what we give. Raising an organic culture goes beyond food, it is about profit for purpose - everyone is invited to get involved and take positive little steps towards a bright future, which is why we started the Mr Organic Family Foundation.

Planet

The planet continues to experience the threat of climate change, exacerbated by the actions of humans. We believe in working together, to take small steps towards conserving the planet for the generations to come.

People

Millions of people in the UK and further afield regularly go hungry. We work in partnership with others to relieve hunger and promote the importance of food education, for a healthy, long and fulfilled life.

Animals

We believe in compassion, life and empowerment of animals and ultimately a cruelty free planet. We raise awareness and support likeminded charities.
